Convenient fold-ups feature Stability Extension System

The new Smooth 5.0P treadmill now has an upgraded 2.0 HP continuous duty motor as well as the patented Smooth Stability Extension System, which provides a stable running surface during even the most strenuous workouts. With an 18" x 52" extra-quiet belt and maintenance-free deck, this compact machine (29" x 29" folded) packs a great bang for the buck!

Like its smaller brother, the 5.1HR also features the Stability Extension System, 2.0 HP motor and five-year limited warranty. Additional features include an expanded dot-matrix console with interactive Heart Rate Control and 1/4 mile running track, speed and incline toggle switches on the siderails and a water bottle holder.
